### **DETAILED ACTION**

### Election/Restrictions

- 1. Applicant's election without traverse of Group I, claims 1-7, in the reply filed on 29 September 2006 is acknowledged.
- Claims 8-17 are withdrawn from further consideration pursuant to 37 CFR
   1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made without traverse in the reply filed on 29 September
   2006.

## Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 4. Claims 1-7 are rejected under 35 U.S.C. 102(b) as being anticipated by Mori (US 2002/0187265).
- 5. Regarding independent claim 1, Figure 6 of Mori shows a deposition mask (200) that forms a continuous organic layer (11) common to a plurality of organic light-emitting devices of a display unit that has a matrix configuration constructed by a plurality of lines and columns associated with the organic light-emitting devices on a substrate (1) by deposition, comprising a body part (202) having one or more stripe-shaped openings (200h) to form a continuous organic layer common to at least two lines of the matrix configuration; and one or more protrusions that are provided on the body part wherein

Application/Control Number: 10/840,074

Art Unit: 2879

the protrusions partly protrude inside the one or more stripe-shaped openings (see Fig. 14).

Page 3

- 6. Regarding claim 2, Figure 14 of Mori shows the protrusions being provided corresponding to an area between the lines of the organic light-emitting devices.
- 7. Regarding claim 3, Figure 2 of Mori shows the protrusions being in a shape selected from the group consisting of a semicircle, semiellipse, and a polygon.
- 8. Regarding claim 4, Figure 14 of Mori shows the protrusions provided as a pair at relative positions on both sides in a width direction of the one or more stripe-shaped openings.
- 9. Regarding claim 5, Mori discloses a plurality of pairs of the protrusions provided corresponding to respective positions between the lines of the organic light-emitting devices (pg. 4, ¶ [0064]).
- 10. Regarding claim 6, the Examiner notes that the patentability of a product does not depend on its method of production (MPEP § 2113). Thus, the claimed recitation of the openings being formed by etching or electroforming has not been given patentable weight.
- 11. Regarding claim 7, Mori discloses the body part including a material having magnetic characteristics (pg. 4, ¶ [0063]).

#### Conclusion

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mori (US 2004/0168634) discloses an apparatus and method for manufacturing an organic electroluminescence device.

### Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kevin Quarterman whose telephone number is (571) 272-2461. The examiner can normally be reached on M-TH (7-5:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nimesh Patel can be reached on (571) 272-2457. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
